

Adult Educator and Learner Consortium

A project of The Rhode Island Workforce Alliance

The Consortium was created to ensure there is a strong voice advocating for increased funding, improved public policies and a better infrastructure for the adult education system in Rhode Island. Adult educators and learners/students from across the state play a vital role in raising awareness about the importance of having effective federal and state policies that provide access to adult education programs.

Name: _____ Title: _____

Agency/Program: _____

Address: _____

City/Zip: _____

Phone: _____ Fax: _____

Please check off what advocacy activities you or your agency is willing to engage in.

_____ Building positive publicity on adult education

- Identify adult student stories for a story book
- Further develop relationships with education reporters and work on securing coverage in local media outlets

_____ Increase adult learners/educators/allies in advocacy

- Identify 2-3 students to engage in leadership development and advocacy trainings
- Identify board members, business allies to be engaged in advocacy activities

_____ Increase legislative support

- Willing to organize(with support) legislative meetings in the district
- Organize adult learners to write letter to elected officials
- Participate in 3rd Annual Adult Education Day at the State House
